

Video CRIME WATCH Program

Doorbell
cameras
work too!

Offered by the Garland Police Department

If you have a security camera system on your home, you can help fight crime right here in Meadow Creek Village! It's easier than you think...

How it works...

- First, understand this does not involve someone tapping-in to your video system.
- When you enroll in the program, you place the location of your camera(s) on a map.
- Garland PD will contact you when they believe a crime event happened close to you.
- You check your own video system for the date & time they provide.
- If you find something of interest, you forward it to them. That's it!

You can help keep criminals out of our neighborhood!

For questions on the program, you can always contact

Capt. S.P. McCully
Program Administrator
